Dear Bob:

Confirming our conversation, INTERMET will provide an advance rebate to Delphi of \$600,000 in 2003 in consideration for future sales of the GMT-900 front steering knuckle. Delphi agrees to purchase a minimum of 750,000 sets per year for five (5) years or 100% of the Delphi sourced volume, whichever is greater over the life of the GMT-900 program at the price outlined in your Letter of Intent, dated May 1, 2003. If Delphi does not purchase the minimum amount, Delphi will refund the advance rebate proportionally to the shortfall based on the minimum quantity.

Sincerely,

Terry C. Graessle
